

## For Sale at the Black Hills Stock Show Sale Frosty Doc -- 10-Yr APHA Gelding

Check out this Good-Looking Boy!

“Frosty Doc” APHA#697,874 - Solid Sorrel with Chrome

Doc came to SunCatcher as a started trail horse, along with another horse that fit right into program. Doc was willing, but unfinished. Though we appreciated his sweet attitude, his lack of experience meant he wasn't ready for program work. Doc spent that summer with an experienced teen volunteer, coming back to SunCatcher in the fall. Sara Stites (a Custer student) was looking for a school volunteer project. Sara met Doc and decided her project would be to finish off his training and ready him for sale - proceeds to benefit SunCatcher Therapeutic Riding Academy [Charity 501c3].

Frosty Doc was bred by Sam Hill of Hot Springs SD from a line of good cow and show horses. He has Sun Frost and Sunshine Jet (son of Easy Jet) on his top side and goes back to other notable horses like Doc Bar and Sugar Bars. Doc is now going well and is looking for some one who wants an honest, well-built working horse! He is listed in the Black Hills Stock Show Consignment Sale, Jan 27 & 28. Unfortunately, Doc drew last place in the sale; but he's a horse you might want to wait around for - Frosty Doc could be your next best mount!

Doc comes with a nice Winter Blanket - donated by Ray's Western Wear, Oacoma SD  
A Headstall from Weaver Leather, Mt Hope OH & a Rope Halter & Lead from Runnings Farm & Fleet, Rapid City SD. TSC also donated his fall worming. Also a year subscription to Today's Horse Magazine Thanks, All!
